R.C.No.4107/52.E. dated 12/9/1952.

Sir,

Sub;-Electoral Rolls-House of the people and the Madras Legislative Assembly-Annual revision-1952-combined review of the National Register of Citizens and Electoral Rolls-Bellary Taluk-62 -Bhairdevanahalli panchayat and the T.B.P. labour camp, Bhairadevanahalli-writing of fresh National Register of Citizens-Industrictions-Solicited.

I enclose a copy of the letter dated 11/9/52 from the Special Dy. Tahsildar (W. and L) Tungabhadra Project. Bellary. He and the Election Dy. Tahsildar visited No.62 Bhaira devanahalli (Panchayat) and the T.B.P. labour camp Bhairadevanahalli on 10/9/1952 to over check the work of enumerators. The National Registers of citizens are in a mess. The block and house numbers in the National Registers of citizens and Electoral Rolls do not tally. The entries in the N.R.Cs. are not made according to the serial Nos. of the houses. There are six registers for B.D.Halli though there are only two blocks. There are two registers for B.D.Halli labour camp where there are 4 blocks. I have therefore asked both the enumerators to prepare fresh National Registers of Citizens and later propose additions and deletions to the electoral rolls wherever necessary. I request that my action may kindly be approved.

Sub:-Elections -Revision of Electoral Rolls_Bhairadevanahalli labour camps-Report-Submitted.

I have been appointed as Supervisor for the Labour camps of the T.B.Project at Bairadevanahalli, Thambrahalli etc.,

On 10/9/1952 I visited the labour camps of Bairadevanahalli along with the Election Dy.Tahsildar and the Electoral enumerator for that area. According to the Electoral Roll sent to the enumerator to the T.B.P.Labour camps, (Please see the key list attached to the Electoral Roll) National Register of citizens are available for 2 blocks only (Blocks 5 and 6). A comparision of the National Register of citizens with the Electoral Roll has revealed that the house numbers and the names noted in the National Register of citizens donot tally with those in the Electoral Roll. Thus it has become impossible to proceed with the work of brining the registers and electoral roll upto-date based on the registers available. Under these cirucmstances, I have directed the enumerator of start the work afresh i.e. to to write the N.R. of citizens afresh for theose persons who are residing at present in the labour camps and then propose additions and deletions to the electoral rolls. My action may kindly be approved.

Sd.R.Harihara Rao,
Spl.Dy.Tahsildar and Supervisor,
